1,313 Survey Respondents
1,013 Pickleball Players
20 Tennis Players
263 Both Pickleball & Tennis Players
17 Non-Racquet Sport Player

Q1: In terms of establishing open play only pickleball locations, how do you feel about the idea of no reservations of any kind being allowed at these locations once they are designated?

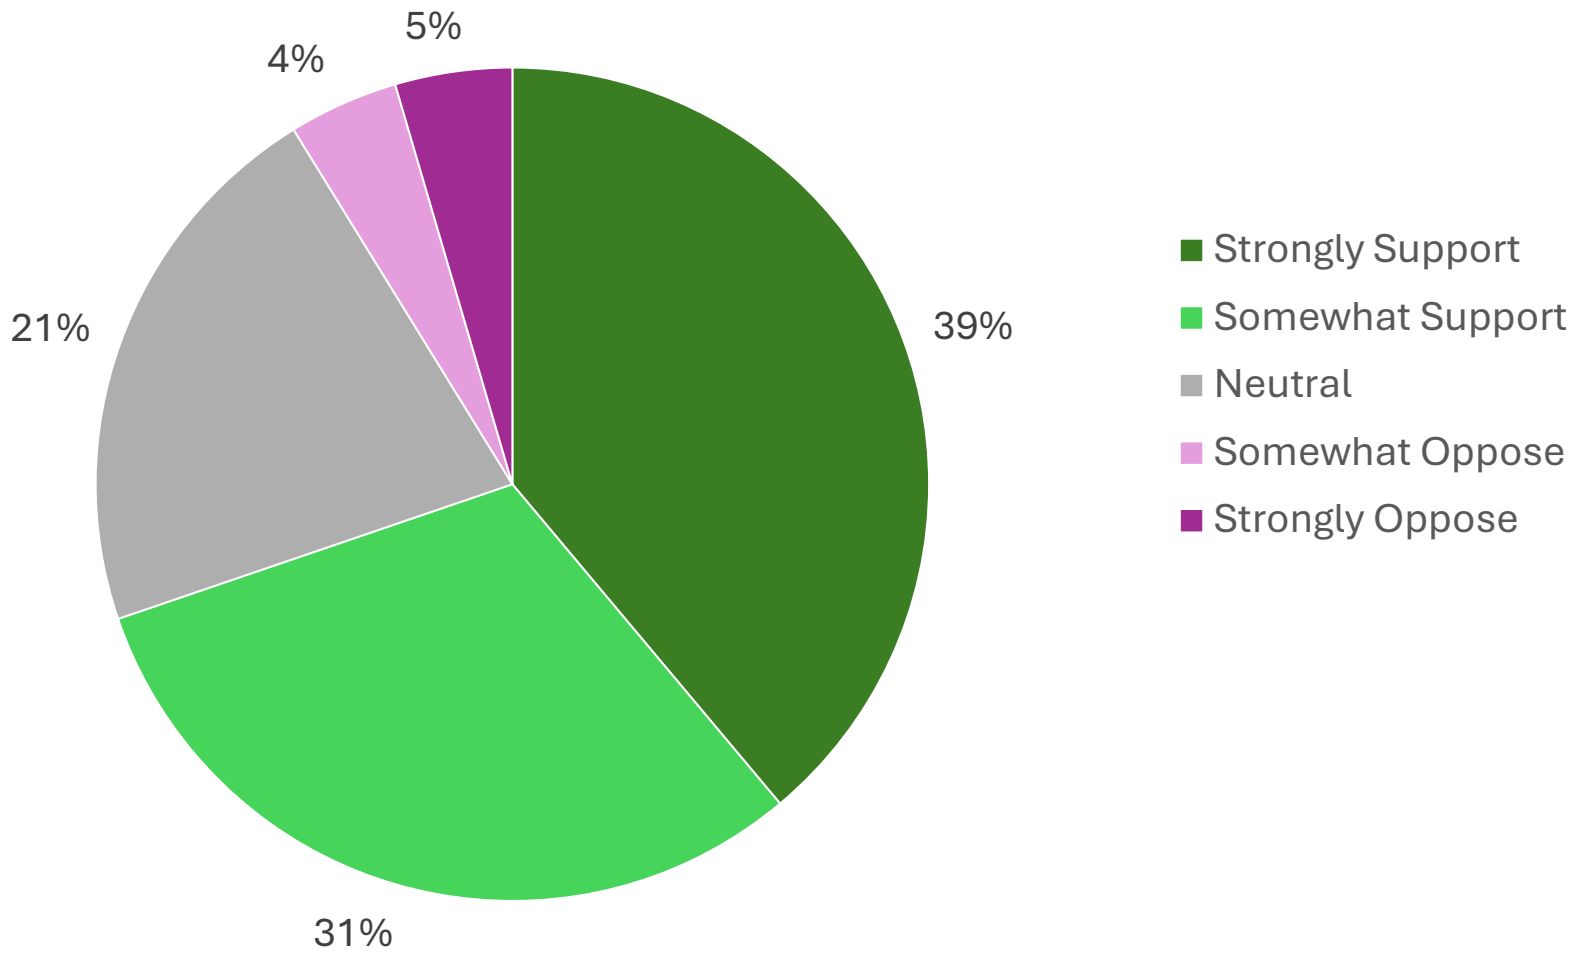

1,313 Survey Respondents
1,013 Pickleball Players
20 Tennis Players
263 Both Pickleball & Tennis Players
17 Non-Racquet Sport Player

Q2: Do you support utilizing split scheduling between tennis and pickleball play to better facilitate shared access at dual use sites and alleviate noise impacts on surrounding properties?

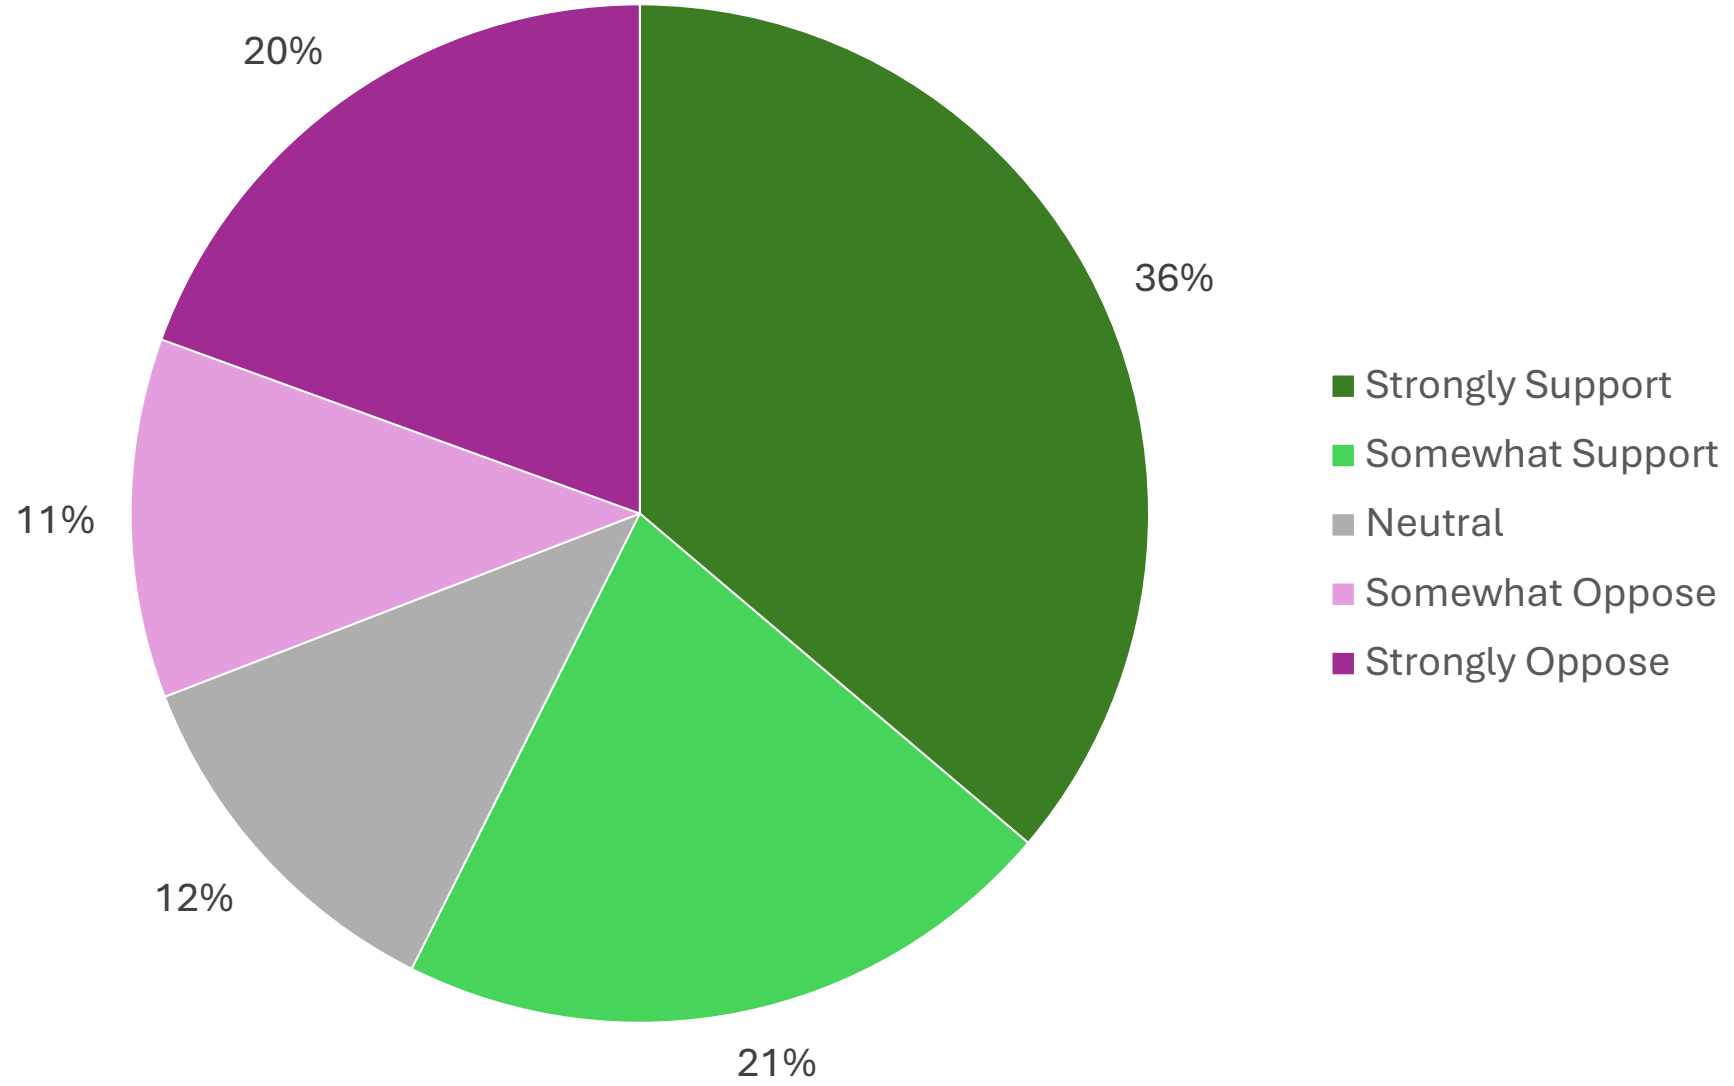

1,313 Survey Respondents
1,013 Pickleball Players
20 Tennis Players
263 Both Pickleball & Tennis Players
17 Non-Racquet Sport Player

Q3: Do you support utilizing advisory groups to facilitate collaboration with SPR on long-term planning and help avoid noncompliance with existing/future protocols at locations with special designations (e.g. hubs, split use schedule, etc.)?

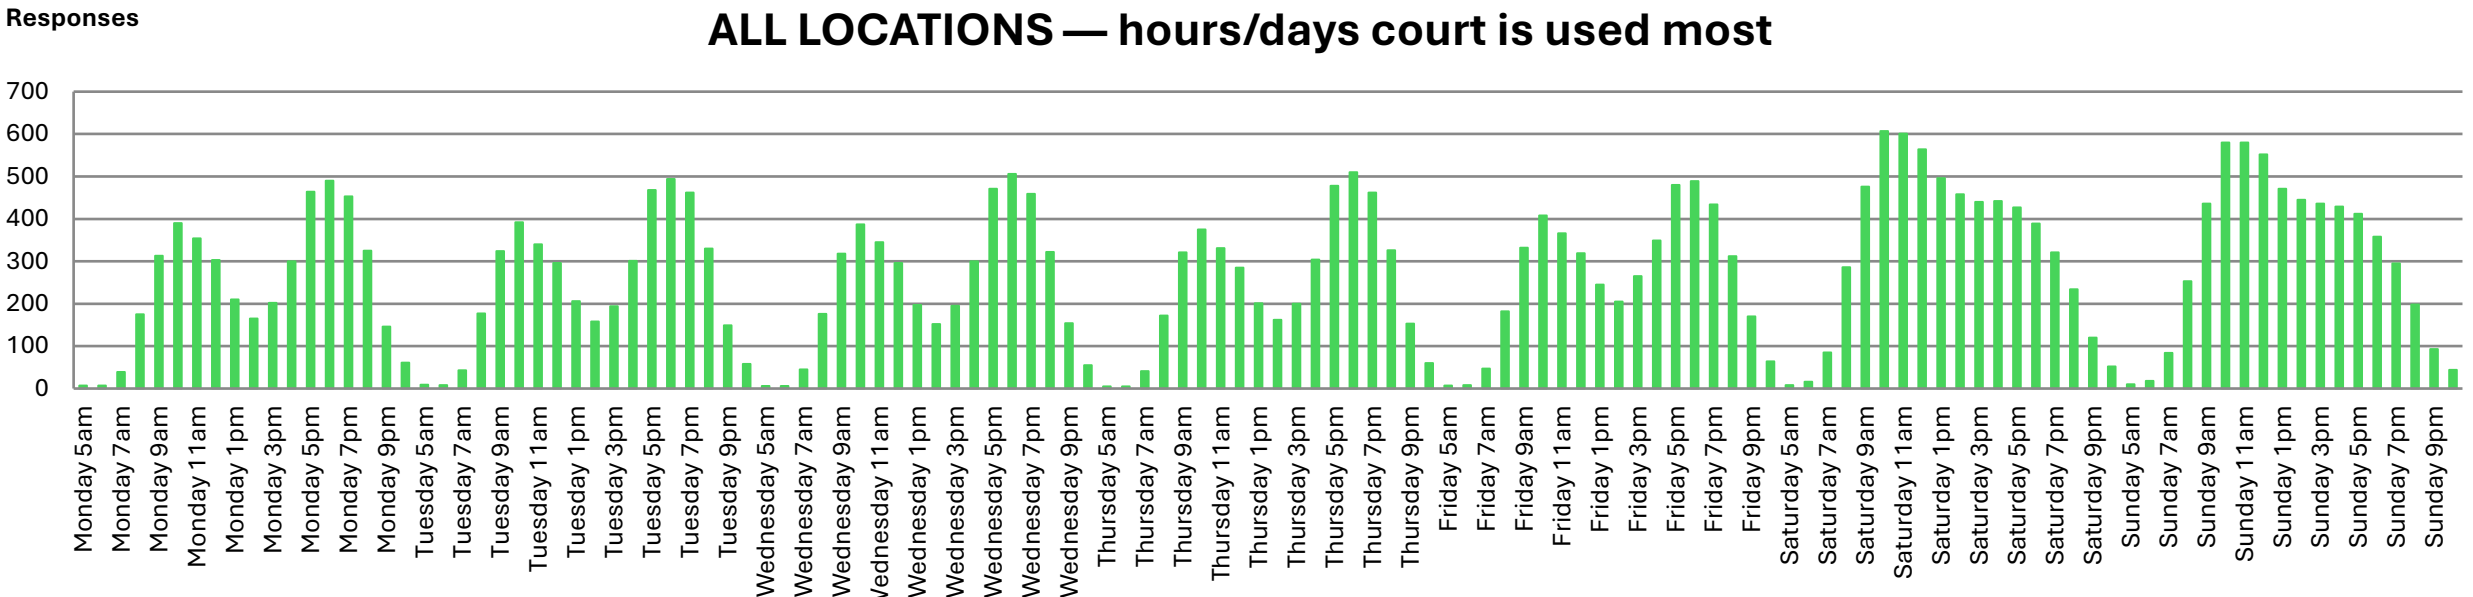

1,313 Survey Respondents
1,013 Pickleball Players
20 Tennis Players
263 Both Pickleball & Tennis Players
17 Non-Racquet Sport Player

Q4: To provide more dedicated pickleball courts sooner, do you support the creation of new pickleball courts wherever it is feasible and safe, even if the court(s) provided cannot meet regulation standards, but still facilitate recreational and communal play? This assumes that designated hub locations will be spread throughout the city and meet regulation standards.

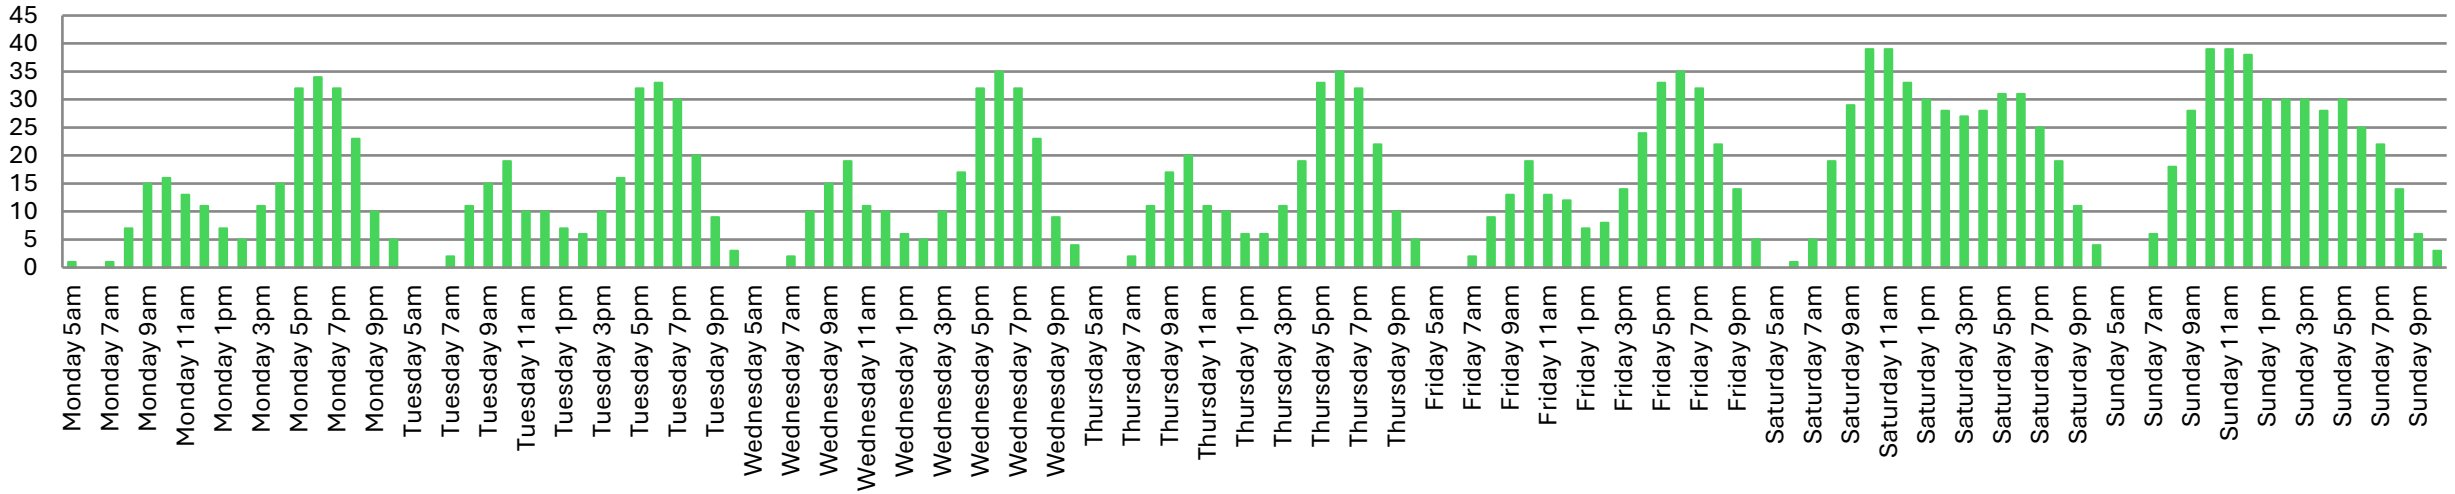

1,313 Survey Respondents
1,013 Pickleball Players
20 Tennis Players
263 Both Pickleball & Tennis Players
17 Non-Racquet Sport Player

Q5: Based off your experience at the court you identified in the previous response, what hours and days of the week is the court used the most? This can be for any type of use observed, such as racquet sports, dodgeball, youth programming, etc.
